

OFFERING CREDIT WHEN STUDENTS ATTEND ONLY ONE DAY PER WEEK:

Options offers credit to students completing classes in our program because students are expected to complete work at home and are required to pass final exams. This demonstrates that students have successfully completed the requirements for the course. Options credit is not based on seat time, but on the effort of the student and the help from home.

Even though Options provides transcripts with credit, parents may choose to accept or decline that credit. Options only provides transcripts to parents or to other schools if asked to by the parent.

Since parents are responsible for 80% of their children's education and Options is only 20%, the choice to accept or decline the credit is up to each parent. The credit becomes part of the home-school transcript as determined by each parent.
